

How-To Assemble File Storage Boxes

STEP 1
Locate panel with red "Burst Label". Turn this label side down. When assembled, this will be the bottom panel of box.

STEP 2
Fold and raise bottom B flaps upward as shown, raising the left and right C side panels.

STEP 3
Place bottom flaps B on bottom panel (B) raising C side panels. Fold left and right side flaps A over front panel (A).

STEP 4
Lift front (A) panel into place, placing left and right side A flaps over the left and right side C flaps.

STEP 5
Fold left and right side D flaps down inside box to finish sides of box, locking bottom tabs into slots on bottom panel.

STEP 6
Fold in lid side G tabs as shown. Fold box top lip (F) over the G tabs, locking the top lip tabs into slots on top panel.

STEP 7
Fold down hinged top lid into position.

NEED HELP?
Please don't hesitate to give us a call!

For best results: Pre-fold all panels and flaps on all scored lines before beginning assembly steps.
